AI Invoice Reader

Photograph any bill. Claude AI reads the invoice number, GSTIN, HSN code, taxable value, IGST/CGST/SGST — no manual entry needed.

Sales Invoice Management

Add, edit, delete, search outward invoices. Categorise as B2B, B2C Large, B2C Small, Export, or Credit Note with full tax breakdown.

Purchase Invoice Management

Inward invoices with RCM (Reverse Charge Mechanism) support. GSTIN validated on every entry before save.

GSTR-1 Computation

Auto-categorises invoices into correct GSTR-1 sections. Table 12 HSN/SAC summary generated automatically — ready for portal upload.

GSTR-3B Computation

Computes net tax payable after ITC offset. Section-wise breakdown of liabilities and credits matches portal format exactly.

GSTR-9 Annual Return

One-click aggregation of all 12 monthly returns. Table 4 outward by type, month-wise breakdown with filing status per month.

GSTR-2B Reconciliation

Compares your purchase register against supplier-filed data. Flags matched, mismatched, and missing invoices with IMS action recommendations.

ITC Ledger (12-Month)

Rolling ledger showing ITC available, claimed, net cash paid, and running credit balance. 12 months at a glance.

PDF Invoice Generation

Generate professional invoices instantly. Includes GSTIN, HSN codes, full tax breakdown — downloadable and shareable.

6-Month Trend Dashboard

Visual chart of tax liability, ITC claimed, and turnover. Spot seasonal patterns and cash flow trends at a glance.

Late Fee & Interest Calculator

Calculate GSTR-1 and GSTR-3B late fees (₹50/day, capped ₹10,000) and 18% p.a. interest on delayed tax payments automatically.

CSV Export

One-click export of any invoice list. Download sales or purchase data as CSV for your accountant or reconciliation workflows.

Real-time GSTIN Validation

Format-checks every GSTIN field on every form. Catches errors before portal rejection — 15-digit format, check digit, state code.

Free tools cut corners. We invest in AI infrastructure, GSP API integrations, and continuous compliance updates. ₹999/month is less than one CA consultation — and we file your returns every month.

"ClearTax charges ₹14,999/year and doesn't read your invoices.

Tally costs ₹18,000 upfront and needs 2 days of training. BeMyCa Pro: ₹999/month, with AI, from day one."

1 Direct GSTR-1 Filing

Submit GSTR-1 directly to GST portal via GSP API — no manual copy-paste.

Status: In development · Requires GSP tie-up (IRIS Business / ClearTax)

2 Direct GSTR-3B Filing

File GSTR-3B with EVC/OTP authentication. Tax liability computed and submitted in one flow.

Status: Planned · EVC integration after GSTR-1 filing ships

3 Auto GSTR-2B Pull

Automatically fetch GSTR-2B on the 14th each month. Fully automated reconciliation — zero manual download.

Status: Planned · Available after GSP credentials provisioned

4 Live GSTIN Verification

Verify GSTIN against live GSTN database — not just format check. Catch deregistered suppliers instantly.

Status: Planned · GSP lookup API

5 Tax Payment Initiation

Generate challan and initiate NEFT/RTGS/Net Banking payment link directly from GSTR-3B computation.

Status: Roadmap · Requires GSTN payment gateway integration
